

# AUCTION!® V4

Here are some highlights of new features:

- Logos, graphic and images on bid sheets, catalog, invoices and other documents.
- Ultra-flexible customization of information on reports, documents, exports and imports.
- Design, save & re-use custom Documents and Reports for your organization.
- Design, save & re-use exports & imports.

- Up to two bid numbers per household.
  - Four item types plus pending items without numbers including new Item types: Retail and Bid Board/Super Silent Items. All item types can be renamed to suit your event. Items can be "Pending" until ready to number, and/or until received.
  - Assign Item Number and separate Inventory Number, if desired.
  - Multiple bids for baskets. Basket may have multiple bids, and can be shared by multiple bidders.
- More available Name Categories/Affiliations.
  - Print individual invoices to PDFs for email.
  - Add Household Members (children) to Household.
  - Group Names together for easy table assignments near each other.
  - Assign Individuals in same Household to different tables.
  - Banquet and Golf Tournament events. Wording changes from "tables" to "teams" and "bidders" to "participants" in a tournament.
  - Choose Name or Company as primary information to appear in documents and for alphabetization of reports.
  - Associate Payments with Cash Donations for clean accounting.
